I misread your email. I will have to check with engineering to see what they would have.

Perfect. Does the city have ancillary traffic and safety studies associated with the signal and road improvements that were completed at the intersection of Brady and 16th that were not commissioned by the developer?

If so, I would love to have these as well.

Thanks,  
Joe

Hi Robert and Lauren,

Can you please send me copies of the conditional use application and the traffic and safety studies associated with the "Camas Station" and surrounding area? Either those provided by the developer or commissioned by the city.

Thanks,  
Joe
