Hi Sharon,

I spoke with the Planning Manager, Robert Maul, and is fine with the existing Noise Study prepared by the SSA Acoustics noise experts.

I have a few minor edits to the sign (see attached).

Hey Lauren,

I'm working through the comment letter and the vendor that provided our noise study has indicated that there isn't anything that will work under your requirement. Washington state does not have PE in acoustics. My options are to provide a noise report from an acoustical engineer without a Washington license and his CV, or a licensed engineer and some other discipline who will not be qualified to do the study. Can you tell me how you've had this requirement met in the past?

In addition I'm attaching my first draft of the proposed sign notice. Please let me know if you would like any edits.

Thank you very much and I look forward to hearing back from you.

Sharon Gretch

Real Estate Project Manager

Sharon,

Attached is the City's review letter for application completeness. Do not hesitate to contact me should you have any questions.

Respectfully,

Lauren Hollenbeck, Senior Planner
