Subject: Possible Spam [SPF Softfail] Stockton Bridge

As a home owner/resident of Capitola since 1989 I'd like to state my firm opposition to removing the Stockton Bridge from the Village and replacing it with one that accommodates a bike route. It's beautiful and functional. It does not cause logjams nor contribute to flooding Some bikers may insist otherwise but it's not true (no proof) and it serves no heir special interest rather than our community.

Please do not spoil our landmark or redesign our popular village Submitted Sandra E Radabaugh-Rich Home owner and resident Sent from my iPhone
