Subject: Save the Stockton Ave. Bridge!

I object to the city spending \$840,000 to replace a perfectly good iconic bridge. I have been a resident of Capitola since 1997, and have witnessed some very serious storms over the past 28 years, never once did they involve a log jam at the Stockton Bridge. I think this is simply a ruse to accommodate the RTC's desire to run a bike path thru the city of Capitola. We don't have room for a bike path thru the city and the citizens of Capitola already voted in favor of Measure L, which prohibits a bike path on city streets. Its time that our elected officials start listening to the residents of Capitola, instead of outside interest groups!
Leave the bridge alone and keep the trail on the rail!!!
