Subject: Trail Alignment

Dear City Council Members,

I have for 7 years lived & owned a residence in Capitola at Brook Vale Terrace Modular Home Park just a few blocks from Gayle's Bakery, Depot Hill and The Village Esplanade.

I am writing now to register my opposition to moving the proposed bike trail off The Historic Trestle, to proceed down through The Village, already an area congested with vehicles (parked & not), bikes, locals, tourists & . . . dogs (usually leased!?).

****To what outcome would This Council agree to act unlawfully (to refute Measure L/ 8.72)?**

****Secondly, I'm disturbed that The Council also appears to be considering support of a trail reroute along Park Avenue, a narrow option for congruence of vehicular & human-powered transport, even after proposed slaughter of existing wealth of eucalyptus on its water side.**

****Simply put, please refute further time & monetary expenditures to promote, or even further examine, the unlawful, disruptive, unnecessary, & unpopular conclusions being erringly presented as reasonable & beneficial to Our Community,**

Thank You.

Warmly,

Rebecca Raney
