Riding my bicycle on Bay Avenue in Santa Cruz I can't help wondering why if the RTC needs to save money, they didn't put the trail on Bay Avenue. It appears to me a direct comparison to Park Avenue in Capitola. The RTC is just taking advantage of a small town. City council members please stand up for your constituents and not let the RTC take advantage of us. The rail Corredor is beautiful and it should not be sold out to a busy street. Santa Cruz didn't do it and neither should we.
