Subject: Re: Vote YES on Option A or B

Don't be bamboozled by those still desperately trying to confuse the council and the public!

It is crystal clear when you walk the proposed trail to understand why the RTC and City planners recommend these two options: Better for environment and monarch habitat, less expensive, beautiful views of the ocean for walking, biking, wheelchairs & parents with strollers.

Why would the council not jump on this amazing, no cost to Capitola opportunity???
