Subject: Vote NO on Park Avenue

City Council Members-

It would be a mistake to ignore the intent of Measure L or Ch. 8.72. We citizens of Capitola are frustrated with the flagrant disregard of the needs of our community and the delaying tactics of the RTC over the past 12 years.

- 1) We were promised a wide and safe trail on the right of way which includes the trestle.
- 2) RTC has only considered the "train" agenda and steered public outreach towards that single goal
- 3) Routing the trail through the village is steep, congested and dangerous for bikers
- 4) City of Capitola cannot or does not maintain streets well (Capitola Av. to Bay Av.)
- 5) If Park Avenue vehicle lanes are made narrower, there will be more head-on collisions or vehicles plowing into the boulder topped berm. That is a lot of money for an unpleasant experience.
- 6) Stop the madness. Federal, state and sales tax money is our money. Build the trail across the trestle and keep it on the right of way and DO IT NOW!
- 7) STOP THE RECALL!
