**Subject:** City Council Appointment - support for Enrique Dolmo

I am writing to support Enrique Dolmo's appointment to the open City Council seat. Mr. Dolmo is the only candidate who put his name forward in the general election last year, demonstrating his commitment to this role and our community. That alone makes him the most viable candidate in my opinion.

In addition to his consistent demonstration of interest in this role, he has a strong vision for Capitola's future focused on our youth. He is an excellent advocate for the kids in our community, with his role at NBMS and Campus Kids Connection. The needs and perspectives of the adults in Capitola are well represented, but the kids don't have enough of a voice. He would make an excellent addition to the city council. Let the others put their name in the general election next round!
