Subject: item 4A

Mayor and Council members,

The future of Capitola rides on the appointment you make to fill the vacant council position. It's imperative, as council member stated, to select someone with experience and knowledge of the city who is ready to hit the road running. No candidate meets this criteria except Susan Westman.

As a council member, I worked with Susan when she was Community Development Director and when she was Capitola's City Manager. She was one of the best in both those positions. She is what we need NOW on the council. Please use your vote to select Susan Westman as our new city council member.

Mick Routh
Former Mayor
