To PLANNING COMMISSION <planningcommission@ci.capitola.ca.us>

Dear commission members,

I am writing you to encourage a positive response to the Tesla dealership permit at 1475 41st Avenue. I think it will be a huge asset for the community to have low cost sustainable transportation and energy products available right here in our backyard. Tesla makes the most efficient, lowest cost of ownership vehicles you can buy, along with powerwalls and solar that stabilize the grid and increase energy independence. I have owned multiple Tesla vehicles, powerwalls, and solar roof.

Tesla employs over 40,000 people in California, pays well, and has great employee benefits. I believe it's important to put Tesla's track record as a humanity first company before the political beliefs of someone who owns less than 15% of its stock.

Thanks for your consideration,
Derek Fester
