**Subject:** Rail trail town hall

I am writing to express my feelings in regards to the Town Hall meeting on April 2nd.

Will all the information the City and residence asked for be available in a timely manner?  
If not then there is no use holding the meeting.

There is no rush on the City's part to get this done.  
The RTC has got to be answerable to us.

Neither of the presented options for the Trail on Park Avenue meet the expressed desires of the residences of Capitola.  
We explicitly voted on Measure L to keep this from being an issue.

As your constituency we expect you to listen to the majority of Capitol Residence and uphold their wishes.  
It is evident that some on the council have forgotten the role of elected officials.  
Measure L was voted on, passed and codified. Now it is your responsibility to uphold that vote. If your are unable to do this maybe Democratic representation is not your calling.

Thank you for your time and service  
Reynie Lave
