**Subject:** Park Ave. Detour and Town Hall

Hello Capitola City Council,

I'm writing regarding the proposed upcoming Town Hall on Apr. 2nd to discuss the proposed Park Ave. detour of the "rail trail" onto Capitola city streets. Following the 3/13 City Council meeting Council requested from the RTC additional options to "Options A and B" presented by the RTC. City Manager Goldstein then specifically requested from the RTC:

- 1). A plan for the Coastal Trail to be located on the Capitola trestle
- 2). A plan to implement it within a defined timeline

To date, I have not heard that the RTC has provided this information. While Capitola residents appreciate the opportunity to discuss this with our elected leaders in a Town Hall meeting, any decision to approve or deny this Park Ave. detour seem premature without the additional information requested from the RTC. I would request that the City Council postpone any future agenda items to vote on this matter until the RTC has provided the additional information requested by both City Council and Capitola City staff.

**Sincerely,**

**Chris Amsden**
