**Subject:** Possible Spam April 4 Town Hall

To whom it may concern,

I am a Santa Cruz county native and have lived in Capitola for over thirty years. It has come o my attention that the April 4 town hall may be premature as apparently all the information that the council has requested has not been received. In regards to the RTC routing the trail through the village of Capitola and the use of city streets for the trail, I STRONGLY oppose this action. The trail should remain on the RTC right of way!

Thank you
