Subject: Bay Avenue Reconfiguration

I appreciate the fact that this intersection/street can be difficult to maneuver but the present configuration I believe has made this street even more dangerous. Both cars and pedestrians are confused by all the lines, colors and posts that have been set up. At certain times of the day it is nearly impossible to navigate all the cars that are backed up passed Gayle's Bakery. I have lived on Sunset Dr for 50 years and now have to plan my coming and going's according to traffic patterns. I also need to cut across a bike lane in order to turn on to Center!

I think a regular red/green stoplight at the four way intersection would be more beneficial than what is being proposed. Thank you.
