> Members of the city Council; you have created a problem that did not need to be solved. You have created a potential hazard by narrowing Bay Avenue at Hill Street. It's impossible for me to believe that you have not seen the lines from that intersection stretching all the way to the freeway and to gayles. I am concerned that you are creating a pro forma meeting to rubberstamp this configuration. I think you've wasted a lot of money for the study and its results. I will be leaving town on Thursday of this week so I will miss the meeting. I'm hoping that the trust we have placed in you as members of the city Council to reverse the current situation.
