Subject: Bay Avenue & Hill Street quick build project

November 19, 2024

Dear Council Members,
Consider eliminating the Bay/Hill Avenue quick build road changes immediately.
This current quick build road configuration makes this area more dangerous.
Having witnessed traffic traveling through the Nob Hill parking lot, creating many new safety issues.
Creating traffic back ups exiting from the freeway onto Bay Avenue.
Especially during peak times traffic backs up under the freeway south and to Gayles heading north up to Capitola Avenue.
This attempt was well meaning, yet is a failure.
Creating congestion does not make the roadways safer.

Thank-you,
Mark Ban
