I reiterate that Ms Morgan is the right choice for our city council. The two candidates that are going to be question tonight have already been vetted and ran for a seat. They both have answered many questions and attended many "meet and greets" throughout their campaign. Moving this decision from last week is only a waste of time. Wasted time equals wasted money, as a city we cannot afford either. Please do not make this a habit of how you as a council plan to do things. The council represents the people, the vote is counted. Ms Morgan is the runner up and should fill the seat.

Heather
