Subject: Bay Ave. Option

Dear City Council Members,

As a local resident on Burlingame Ave., please consider restoring the street configuration to its original configuration of 2 lanes each way. The current configuration has become a dangerous section in the area by Nob Hill. People cut through the business parking lots, drive down the ending turn lanes, honk, drive down the left turn lane from Hwy 1 to Woodworm and then cut people off just before the stop sign, etc. etc. etc. As I drive that section several times a day, it is exasperating to watch how unsafe people are driving! Please, please consider restoring it to the original configuration ~ it was WAY, WAY safer!

Thank you for reading,

Carrie Howard

Burlingame Ave., Capitola
