## Monte Foundation Fireworks

I understand there is discussion about the future of our beloved show. We strongly support the fireworks show as it is. We are one of only a handful of full time jewel box residents of Prospect Avenue. We are most affected and we want to keep them as is. The petition I saw to limit the noise is from a resident of Live Oak. Keep Capitola the way it is today. Even better, make it the way it was in 2019 with a restaurant and music on the wharf. It is dying as is.

Best regards,
