To City Council <citycouncil@ci.capitola.ca.us>

Glorious day folks. The Julian sun has risen to banish Pompeian night forever.

Has to be a special election. You can not just appoint Margaux who was recently not chosen by leaps and bounds. Interesting idea appoint Kristen.

But I doubt you folks will do an appointment. So recently after the election the optics would allow folks good at narrative to just own the processes for years after.

Maybe actually appointment is the best idea.

Warmly JM
