**Subject:** The mall project

**Has anyone bothered to contact the sanitation district? I have and we are ill equipped to handle hundreds of units discharging sewage 24/7, not to mention the jamming of already packed adjacent streets. It's madness. It's wrong.**

Things are moving way too fast on the mall proposal and it's time to slam on the breaks and free ourselves from the State density housing program. There are methods to confront this rape of Capitola. That's where are heads should be act. I am sorry for the developers who purchased the mall, but that's exactly what they did, they purchased a regional shopping center with the nod from some city officials that the zoning could be changed. And it was, a big mistake.

Let's do it right,get this on the ballot for a people's taxpayer's vote. Let's see how the people feel, in the meantime cram legal action against high density housing!
