Dear Capitola City Council,

I'm writing in support of Item 8A, The Park at Rispin Mansion.

As a Board Member of Capitola Cares, I'm thrilled at the prospect of partnering with the City to thoughtfully expand the park's elements. We are deeply grateful to Jessica Hahn and Chloe Woodmansee for their guidance and steady support throughout this process thus far. It is truly a pleasure to collaborate with them.

Each time I visit the new park, I'm struck by how many families and individuals are already enjoying the space. Thoughtful enhancements will only strengthen its role as a happy gathering place for our community.

Access to quality outdoor space is essential to both physical and mental well-being. Expanding and improving this park reflects Capitola's commitment to community connection, health, and shared civic life. We are excited about the opportunity to help grow and steward this open space for the benefit of residents now and for generations to come.

Best Regards,

Heidy Kellison
