

# Department Staff Report

**Department:** PUBLIC WORKS – W&S

**Date:** 10 April 2023

Water Facility Maintenance	Clean snow away from buildings and shoveled paths to the doors.
Water Facility Improvements	Bought a paddle lock for well #1 gate, so it can be locked.
Wastewater Facility Maintenance	Clean snow around the ponds and building in preparation for discharging. Bought a new hose for the chlorine transfer from barrel to barrel. Cleaned snow and ice from around the gate to sample spot, used one bag of ice melt.
Wastewater Facility Improvements	Replaced the chlorine hose and one outside light.
Test/Sample Status	Took two water samples for our monthly requirement. One for our regular sample and one for information after the winter. Started to discharge at the sewer for the year ran for 6 hours. Took several samples and haven't received results as of this report.
