Mr. Bryce Cox
Assistant Division Traffic Engineer
North Carolina Department of Transportation
Division 3 Office
5504 Barbados Blvd.
Castle Hayne, NC 28429

Subject: Request for Municipal Traffic Signal Agreement for Proposed Traffic Signal Modifications at the intersection of US 421 (North Lake Park Boulevard) and Harper Avenue in Carolina Beach, North Carolina. 03-0056

Submitted herewith is a request for a Developer Signal Agreement between NCDOT and the Town of Carolina Beach for a traffic signal modification at the above referenced intersection (03-0056). The work consists of the modification to the westbound laneage from a share left/through and dedicated right to a dedicated left-turn lane and share through right. The modification of the laneage requires the removal of the existing 5 section signal head and installation of a flashing yellow four section head. Leading pedestrian interval (LPI) will also be installed on applicable crossings. The modification to Harper Avenue laneage is to address the significant lane misalignment for the westbound approach.

The signer, entity, and address at the Town of Carolina Beach are the following:

Bruce Oakley
Town Manager
Town of Carolina Beach
1121 North Lake Park Boulevard
Carolina Beach, North Carolina 28428
910-458-2994
Bruce.oakley@carolinabeach.org

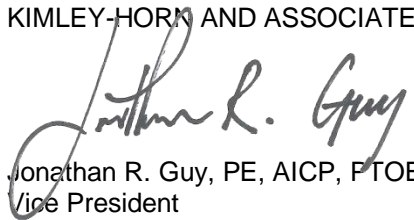

Please prepare a Municipal Signal Agreement for the referenced signal. The contact to whom the TSA Docusign should be directed to at Town of Carolina Beach is:

Bruce Oakley
Bruce.oakley@carolinabeach.org
910-458-2994

Please also copy me in the Docusign so that I can stay updated on its progress and let the client know to check for the Docusign email. Please call if I can provide any additional information or answer any questions. We appreciate your attention to this matter.

Regards,

KIMLEY-HORN AND ASSOCIATES, INC.

Jonathan R. Guy, PE, AICP, PTOE
Vice President

Copy to:

Bruce Oakley – Town of Carolina Beach
