

AGENDA ITEM COVERSHEET

PREPARED BY: Brian Stanberry

DEPARTMENT: Public Works

MEETING: Town Council Meeting 7/9/2024

SUBJECT: Approval of the Debris Removal Contract

BACKGROUND:

The Town recently hired Rostan Solutions LLC to procure, through formal RFP process, proposals for Emergency Debris Hauling. This is a prepositioned contract that would be activated in a time of emergency need, such as hurricane cleanup. Procurement of this contract meets all Town, State and Federal requirements and allows for FEMA reimbursement for emergency services post-event. Based on the attached recommendation document submitted by Rostan Solutions LLC, it is Staff's request to extend contracts for Disaster Debris Management to Custom Tree Care, Crowder Gulf and DRC. Having three contracts in place for this service put the Town in a stronger position to provide cleanup services post-event. The contract is for a period of three years with the option of (2) one year mutually agreeable extensions.

ACTION:

Motion to award the emergency debris hauling contracts to Custom Tree Care, Crowder Gulf, and DRC.
