Good Afternoon,

Any fire retardant or fire resistant material would be acceptable.

Buddy

Hello!

The applicant for the 2 unit PUD at 2 North Carolina that was discussed at the last TRC proposes to use the material below? Does this meet fire requirements for the staircase within the 15' separation setback?

Thanks for your help!

Gloria Abbotts

Hi Gloria,

I meant to add this link for the non-combustible materials for the stairs and landing.

Mike
