PROJECT: 307 Carolina Beach  
Carolina Beach, NC 28428

Homeowner: Chiaki Ito

RE: Feasibility Study - House Lifting

To whom it may concern,

This letter is to inform you that HC Engineering has determined that it is not feasible to move or “roll” the structure located on **307 Florida Ave, Carolina Beach, NC 28428** in any direction. Based on the site pictures below and survey provided, there is a high risk of damaging the accessory structure (garage) and compromising the integrity of both structures. Moving the home will also be dangerous for the contractor responsible for the task.

Shall you have any questions or concerns, please contact us anytime at (732)804-1313 and we will be pleased to assist you.

Sincerely,

Digitally signed by
