
ATTACHMENT 1

Sec. 40-45. Rules for interpretation of district boundaries.

The Zoning Administrator shall decide the exact location of any zoning district boundary lines whenever uncertainty exists about the boundary lines shown on the official zoning maps, subject to appeal to the board of adjustment provided for in article XVI of this chapter. The determination of the exact location of a zoning district boundary shall be based upon the following rules:

- (1) Boundaries indicated as approximately following or within a street, alley, or railroad right-of-way, or utilities (electrical, gas, water main, etc.) easement shall be construed to be in the center of such right-of-way easement;
- (2) Boundaries indicated as following shore lines shall be construed to follow such shorelines, and, in the event of change in the shorelines, shall be construed as moving with the actual shoreline; boundaries indicated as approximately following the centerlines of streams, rivers, creeks, or other bodies of water shall be construed as following such centerlines;
- (3) Boundaries indicated as approximately following plotted lot lines shall be construed as following such lot lines;
- (4) Boundaries indicated as approximately following Town limits shall be construed as following Town limits; and
- (5) Boundaries indicated as parallel to or extension of features indicated in subsections (1), (2), (3) and (4) of this section shall be so construed. Distances not specifically indicated on the official zoning map shall be determined by the scale of the map.
- (6) In the event that a district boundary line on the zoning map divides a platted lot held in one ownership on the date of passage of the ordinance from which this chapter is derived, each part of the lot so divided shall be used in conformity with the district in which such part is located.

(Code 1986, app. A, § 2.3; Ord. No. 00-463, 10-10-2000)
