Sec. 40-548. - Definitions.

*Water oriented businesses* means any boat that can be rented for off-site use or offers off-site activities from the property. Examples shall include but not be limited to the following uses or activities: charter boats, boat rentals, dive boats, dinner cruises, boat taxi, etc.....

Floating Structure means a barge-like structure, that is not used as a means of transportation on water but which serves purposes or provides services typically associated with a structure on or other improvement to real property used for human habitation or commerce. Incidental movement or the capability of movement upon water does not preclude a structure from classification as a floating structure. Registration of the structure as a vessel in accordance with NCGS Chapter 75A does not preclude a structure from classification as a floating structure.

Boat (vessel) means watercraft of any type or size specifically designed to be self-propelled, whether by engine, sail, oar, paddle, or other means, used to travel from place to place by water. A boat or vessel shall also include any machine designed or intended to travel over water by self-propulsion
