Maine Parent Federation: Caregiver Support Group Parent Partner

Do you have any areas of special interests and/or skills?

I worked with the Portland Public Schools as their Board's Admin Assistant and attended various Board and Committee meetings, including their Comprehensive Planning Steering Committee. My responsibilities not only included meeting preparation and meeting minutes, but also was involved in editing/wordsmithing and preparing various policies, plans, guidelines and other various documents as prescribed by Board action.

I am very new to the town of Casco and phasing out of the 9-5 working world. I'm interested in being more involved in my new town both on a governance capacity as well as community involvement.
