

TOWN COUNCIL AGENDA ITEM

TOWN OF CENTURY

SPECIAL CALLED COUNCIL MEETING – Dec. 18, 2025 6:00PM

To: Mayor and Town Council
From: Dave Murzin, Town Manager
Re: Loan Agreement for FDEP Drinking Water State Revolving Fund for Project DW 170340
Date: Dec. 11, 2025

Subject:

Consideration of Loan Agreement for FDEP Drinking Water State Revolving Fund (SRF) for planning and design of certain improvements to the Town's water utility system for Project No. 170340.

Background:

The Town was approved for a loan/grant from the FDEP SRF in February of this year for \$150,000 (Project DW 170340) to complete the planning and design for certain water related projects. The projects to be designed include various water projects throughout the Town's franchise area, including (i) rehabilitation of Well No. 1; (ii) replacement and rehabilitation of Well No. 3; (iii) Tedder Road booster pump station; (iv) purchase of billing software; and (v) water service renewal throughout the Town.

The Town has recently received from FDEP the actual Loan Agreement for this funding and has been asked by the State to execute this agreement. A copy of the Loan Agreement is attached hereto. Council approval of the Loan Agreement is needed.

Recommendation:

1. Approve the Planning and Design Loan Agreement from FDEP SRF (Project DW170340); and
2. Authorize the Mayor to take all actions necessary and appropriate to (a) consummate the loan agreement, (b) negotiate, approve, and finalize on behalf of the Town all documents and agreements in any manner relating to FDEP Project DW 170340; and (c) execute on behalf of the Town all documents related thereto.

II. *Request for Inclusion for SRF Funding of Construction of Water System Improvements.* The second item is to approve and authorize a request to FDEP for the Town to be included for SRF funding of the construction of the water system improvements. We suggest that the language for the agenda for that item be:

“Consideration of Request for Inclusion to receive funding from the FDEP State Revolving Fund for construction of needed water system improvements.”
