

The 10" water meter serving the Century Prison has been in need of replacement for several months, hindering proper water usage monitoring and billing. Ferguson Waterworks is the exclusive authorized distributor for Neptune Technology Group products in this region. The required replacement — a 10" MACH 10 R900i meter — must match the Town's existing Neptune 360 metering infrastructure to ensure compatibility and integration.

Pursuant to the Town's procurement policy, this qualifies as a sole source purchase based on the unique technical requirements and manufacturer's authorized sales territory.

FISCAL IMPACT:

\$15,009.75 to be paid from the Water Utility Fund.

RECOMMENDED ACTION:

Authorize the Mayor to proceed with the sole source purchase of one (1) 10" MACH 10 R900i ultrasonic water meter from Ferguson Waterworks in the amount of \$15,009.75 for the Century Prison, as quoted in Ferguson's Quote No. B426463 dated July 9, 2025.
