

April 2025

We have officially placed Quint 3 in service! This was a huge undertaking, as our dedicated members refurbished this truck in house. Purchasing a used truck and updating it ourselves saved us and the taxpayers an exponential amount of money. This truck adds a new level of service to the Town never had before. Members have begun training on it and getting released to drive and operate it.

Our members were present at the YMCA Healthy Kids day on April 18th. We also had other members handling a large brush fire simultaneously with the assistance of Boydton Fire Dept and Va Dept. of Forestry.
