

DECEMBER 2025

Public Works Monthly Update

The guys have been rolling right along, staying busy, even with the cold temps. No rest for the weary as it's phrased. Both crews worked tirelessly through the evening to clear the streets for our 1st snow event of the year. We are expecting much more to come our way in the near future.

Street Department

The Street Crew has been staying on top of things around town. They have worked diligently to keep the leaves and the brush up. The crew has also been going around trimming potentially hazardous and low hanging limbs and bushes from the roadways. During the weeks after the holiday's, Tony's crew helped out with trash removal.

Water/Sewer Department

The Water Crew has been working on parts of the B St. project. They were able to get a portion of the water line installed on Madison St. They have had a slew of Miss Utilities to mark for all of the underground work coming through town. The crew had a couple of smaller scale water leaks to contend with. Add in a few graves, they have had plenty to do as well.

Maintenance Department

The shop guys have been busy with maintenance on both the shop and Police vehicles. They have talked to a couple of people on installing a thumb on the backhoe for easier operation when picking up items. They also serviced vehicles for state inspections.

Nelson and his guys have done a great job with keeping the Waste Water Plant running smoothly. DEQ came down for an inspection at the Plant last week. We are expecting a good report from them. We would like to welcome Chris Hudson back after an extended leave from shoulder surgery.

THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK AND ENDURANCE!!! YOU ARE ALL GREATLY APPRECIATED!
