

## Raising the Water & Sewer Tap Prices

Item: To authorize the town to raise the purchase price of water & sewer taps.

### Discussion:

1. Currently, the price for a water tap is \$800.00 (30% mark up for out of town & \$100 if street must be cut. The sewer tap is \$600.00 (30% mark up for out of town & \$100 if street must be cut.
2. The Town is paying over \$1,000.00 just in materials. This does not include labor and rock needed for the job.
3. The Town is losing money any time it does a water or sewer tap.

### Recommendation:

1. The Town Council votes to authorize the town to increase the price for a water tap and a sewer tap to \$1,500.00 respectively.
