

SEPTEMBER 2025

Public Works Monthly Update

Fall is here and with that comes cooler temps. The guys have been trying to catch up on the last of the grass cutting around town. These warm fall temperatures are making it hard though. Fall Clean-Up week is upon us and we are looking for a busy week. We're hoping all residents will comply and help things go smoothly for us.

South Central Fair came in last week and we want to thank all who came through to make it a success.

Street Department

The guys of Street Crew are enjoying the fall weather. It's not as bad on them out there. They are still dealing with the grass cutting. Lately, the crew has been cleaning up a lot of brush and debris. They have several work orders for clean-ups on the books as well. With Clean-Up week this week, their schedule has only grown.

Water/Sewer Department

The Water Crew was able to get out and do some clearing of the sewer right-a-ways. They also tied in a new section of water line and service lines on E St. between High St. and Gregory Ave. They had plenty of Miss Utility tickets to mark. They have several projects coming up for them as well.

Maintenance Department

The shop guys have had a steady flow of vehicles to maintain. Several for inspection and some for routine maintenance. David and a couple of the guys help put the fall banners up in lieu of Chris' absence.

Other Updates

The WasteWater Plant is back up and running normally now after having an electrical issue pertaining to the construction on the culvert pipes being put in by Microsoft. Four electrical coils had to be replaced.

The Airport project has been completed. It turned out really nice. The guys cleared out small trees from a fence line to add to the finishing touches.

**THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK!!! YOU
ARE ALL APPRECIATED VERY MUCH!**
