

AUGUST 2025

Public Works Monthly Update

With Summer officially coming to an end, it makes for cooler days ahead.

We are gearing up for fall cleanup around town. The guys are looking forward to the slow down on grass cutting. It was a challenge for them to keep up with it this past summer. We had quite a few projects of our own that were completed as well. The guys are looking ahead for what's to come.

Street Department

The Street Crew has been doing a great job keeping this looking good around town. They have been really busy with the grass cutting and have also been going around trimming low hanging limbs and bushes.

Water/Sewer Department

The Water Crew has been on the ball as of late as well. With several projects on the books, they have completed 2 water line replacements which included 1 at the old town office and 1 on the 500 block of Dodd St.

We thank the residents of the area for their patience and understanding during construction. The guys had a ton of Miss Utilities to mark on top of all the work.

Maintenance Department

The shop doors haven't been let down in what seems to be all month. Pooney and Ray have had their share of vehicles to work on lately. The P.D. has added several new vehicles to the fleet, which needed servicing before being road worthy. Add in the loader and other shop equipment, They have kept things moving along.

Other Updates

The WasteWater Plant had an issue with a float monitor. It has been replaced and things are back running normally now.

The Airport project is underway. A couple of rain days set them back a little, but things seem to be on track now.

We want everyone to welcome Debra Jones to the shop office. One month in and her presence is being felt/noticed already.

Want everyone to come join us for the last P@P event this weekend!

**THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK!!! YOU
ARE ALL APPRECIATED VERY MUCH!**
