

MAY 2025

Public Works Monthly Update

Things have been picking up lately around the shop. The guys, on all crews, have been busy. We were able to pick up 2, new to us, pieces of equipment in recent weeks. They will prove to be beneficial for our guys.

Street Department

The Street Crew has been doing a great job keeping things looking nice around town as usual. They got the Airport ready for the 1st Fly-In. The crew has been doing some bush hogging and side arm cutting on streets and creek banks where needed. They also helped on a big water leak on W. Second St.

Water/Sewer Department

The Water Crew has been busy as well. They had several small leaks to deal with. They did have a big leak on W. Second St. a few days ago that took until dark to finish up. As with the rising temps and rain showers, the guys have seen a few more blocked sewer lines.

Maintenance Department

The shop guys have been busy as well. They have had to change out a couple sets of tires on vehicles and trailers. The new pieces of equipment were fitted with new lights and some cosmetic issues taken care of.

Chris has been doing a good job with the maintenance and upkeep of all the buildings, old and new around town. He also helps out where he is needed.

Other

Updates

Things are going good at WasteWater Plant now. Several ballast had to be changed out on the UV lights. Since being replaced, the lights are running efficiently and testing normally.

Another phase of the B St. project has been finished. It included the rehab of a dozen manholes in that area.

THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK AND SACRIFICE!!! YOU ALL ARE APPRECIATED!
