SEPTEMBER 2026

Public Works Monthly Update

This month has been one for the books. The guys have really stepped up to the plate. We have had a ton of things going on throughout the month that they have handled like champs. Tony, Josh, Marvin, Chris and Ray helped beautify Pocket Park with fresh stone and some new grass. Elsa Christina Gailor assisted with the layout and design for the area just ahead of the Fair.

Street Department

The Street Crew has been rolling along with trying to keep things looking nice around town. Recent rains have caused the grass to have a late jump in growth. In between the duties of grass cutting and other projects, the guys have been on the roads, here & there, picking up auction items procured by Sergeant Callahan.

Water/Sewer Department

The Water Crew have been working on and finishing up on the water line upgrade install on Va Ave. They have a couple more lines to hook up and tie in to complete the project. Once they have completed these, the asphalt crew is scheduled to come in the week of the 19th to resurface the whole street from Pettus St. to the lower end of Va Ave. The guys also had a few leaks to repair and several sewer lines to clear out.

Maintenance Department

The guys in the shop have been busy as well. They have been working on the street sweeper, patching up small areas before getting it painted. They have had a few vehicle inspections to get done and had to service several more. Ray has been helping out on the street crew as needed, as they are shorthanded at the moment. Nelson has the WWTP running well. They have a few more things to get done to have it back 100%. We did get the pump back for Butcher's Creek Pump Station. It has been reinstalled & is awaiting wiring to put it back in service. Thydale pumps have been replaced and running as well.
Chris is about to start a project at the Library, painting the bathrooms. He does a good job maintaining the buildings around town.
Clean-up Week is this week! Farmer's Market this weekend. Last Fly-In next weekend! Come out to enjoy it!!

THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK!
