

ARPA Funds

Item: To update and approve purchase of items with ARPA funds.

Discussion:

1. Town has received first round of money for ARPA.
2. Complete the electronic installation of SCADA with the additional equipment needed for the WWTP at a cost of \$84,456.00
3. Upgrade to all digital water meters at a cost of 472,420.00. This will allow accurate and timely meter reading and the program will integrate with our billing system.
4. Slip line for sewer line from Grove Avenue to the ballpark at a cost of \$109,222.00. This liner will prevent infiltration of the sewer line and will fill in all the cracks, holes, etc.
5. Two new pumps for WWTP at a cost of \$44,900.00 each.

Recommendation

1. Town Council approves the above purchases using ARPA funds.
