

Replacement for B&B to monitor landfill

Item: To find a replacement to monitor the landfills.

Discussion:

1. B&B Consultants currently monitors the Chase City Sanitary Landfill.
2. Effective March 8, 2021, B&B Consultants will no longer provide professional services for the landfill.
3. B&B Consultants has recommended Jim Patterson with KBJW Group, a former employee of B&B, who has knowledge of the landfill and has continued to work with them to date on this landfill to date.

Recommendation:

1. Town Council chooses a new firm to replace B&B to continue the efforts of closing the landfill.
