

OCTOBER 2024

Public Works Monthly Update

October came to a quiet, yet eventful end. We had the last Fly-In, and the last Party @ The Pavilion. Both of which were successful. Looking forward to bigger and better things for both next year. We also had a good turn out for our annual Trunk or Treat.

Leaf season is officially upon us. We are hoping everyone will be patient with us as we will be getting them up as soon as we can.

Street Department

The Street Crew is gearing up for a very busy month after a good finish to October. With leaves falling at an enormous rate, they are focussing on removal now. The guys officially got started on last Wednesday with the process. It will be dusty and a little noisy when they come thru the neighborhoods. Bare with us!

Water/Sewer Department

The Water Crew finally finished the lead/copper inventory. Putting that behind us until further notice. It was definitely a painstaking adventure the guys took head on. The crew also had a couple of water leaks to deal with.

With the B St/Railroad Ave. project moving ahead, the crew has started putting in the new water line behind Butlers, which will tie in Railroad Ave.

Maintenance Department

The shop has been busy as well. They had several of the Police vehicles come thru for repairs. There were a couple vehicles in for maintenance and inspections. One of the dump trucks had an issue with brakes which left it out of service for a few days. It is running and back in service now.

Other Updates

The WasteWater Plant is performing nicely. Nelson and his crew pumped down and cleaned 1 of the clarifiers. They reinstalled a return pump that we had been waiting on. All the other stations are running as they should. The shop was able to acquire a new tire changer and

balancer to replace the old one that had broken down. Chris has been doing his part in keeping the town and buildings looking nice.

THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK!!! YOU ALL ARE APPRECIATED!
