JULY 2026

Public Works Monthly Update

The guys and the shop have really been in high gear this month. With all the rain and hot, humid temps, things have been moving along pretty well. The crews have had several projects on the books that they have gotten completed. The old Newell lot has seeded and strawed to help dress that area up as well.

Street Department

The Street Crew has done a good job in keeping the town looking nice. They have received a few compliments on how nice it looks around town. The grass is growing like a wild fire but Tony and the crew are doing their best to stay up with it. The next plan is to tackle the brush that's starting to pile up around town.

Water/Sewer Department

The Water Crew have been working diligently on several different projects around town. They had a couple of water leaks to repair. We have 3 big jobs on the books for the coming weeks. 2 will be Sewer lines going across W 2nd St. to start on tomorrow and they will be starting on the replacement/installation of a new water line on Va Ave. after they finish up with the 2nd St projects. This will call for both crews to work together to accomplish these jobs. Hopefully, things will go smoothly for all of them. A lot of forethought has been put into their planning.
We would also like to welcome Brandon Moore to the Water Crew.

Maintenance Department

The guys in the shop have been rolling along. Between lawnmowers and vehicles, things have been steady for them. Although Pooney has been sick, Ray has kept up well with the demand.
Nelson and Mario have also been doing a fine job at the plant and Pump Stations to keep them running properly. We would like to welcome part-time helper, Derrick Ramsey, to the Waste Water Crew.
Chris has done his part in keeping the Town running smoothly and looking great.

THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK!
