

OCTOBER 2025

Public Works Monthly Update

The guys are gearing up for the Fall Season. With grass cutting just about over, leaves and brush are taking precedence. Phase 2 of the B St. project is set to get under way soon for the water crew. Paving was scheduled to start today on N. Main St. Pot hole patching is scheduled for the 24th.

Street Department

The Street Crew has been out with the leaf machine the last couple of weeks. They are trying to stay up with the falling leaves. We're asking for residents to be patient with us on the pick up and to bear with us on the dust created from the machine.

Water/Sewer Department

The Water Crew worked on cleaning up the sewer right-a-ways. They also put in new meter taps for the old Mecca and a temporary tap at the old Elementary School. The crew was called in to fix a water leak on "A" St. QAs always, they have had plenty of Miss Utilities to mark. Some for us and some for others.

Maintenance Department

The shop guys have been steady with things to do. Several vehicles have been in for minor repairs. The most common being the replacement of bad batteries.

With Chris still out recovering from his shoulder surgery, David and some of the other guys have stepped up when repairs are needed.

Other Updates

The WasteWater Plant is running good and efficiently. We would like to wish Robert, "Pooney," a speedy recovery.

THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK!!! YOU ARE ALL APPRECIATED VERY MUCH!
