

Public Works Monthly Update

Pre-Hurricane prep work done beforehand. Storm drains cleaned and checked, debris picked up, flags and banners secured. Town had several trees down, lots of small limbs and leaves. All in all, fared very well considering damages in other areas.

Street Department

Cold Patch/Hot Patch Asphalt done in several streets around town in repair areas and potholes. Storm clean-up still being done.

Maintenance

Lift arms on Loader is fixed. Hydraulic cylinder on Trash Truck is fixed. All vehicles are in service and up to date on inspections. Leaf Vac was temporarily out of service for a bad choke solenoid. It will be back by Friday.

Water Department

Main Sewer line project on Anderson Street has been completed. Lead and Copper water sample testing has been completed.

Other Updates

Awaiting delivery of new Dumpsters (three).
