

MARCH 2025

Public Works Monthly Update

We are gearing up for a work filled Spring/Summer at the shop. Between the warm weather, rain showers and many projects getting underway, the crews will be busy all the time. To kick it off, Clean Up Week started today, running through the end of the week. We ask for all to comply and to be patient.

Street Department

The Street Crew has been getting out picking up small brush and debris piles. They put lime down on the Cemetery and the Pavilion and are now in full swing with grass cutting as well. The delivery of gravel and filling of potholes are always on the to do list. The crew also lended a hand at the Community Park with the cleanup of the Press Box.

Water/Sewer Department

The Water Crew haven't slowed down much at all. Since completing this last stage of the ongoing B St Project, the crew has been busy marking Ms Utilities for the cable being installed for Microsoft. They put in a new sewer line and 2 hookups on Boswell Ave. They had several graves and cremations to handle at the Cemetery. Recently, the guys have been getting things together for a 3 phase project we're about to undertake shortly.

Maintenance Department

We welcomed Robert, Pooney to most, back from his time off. He has jumped right back into the swing of things here. Ray got started on replacing another motor in a Police vehicle and Robert was able to help him finish that up. We had several pieces of equipment and vehicles come through the shop for repairs, big and small. All which were handled in a timely fashion.

Other Updates

The WasteWater Plant is looking good. They had an inspection there last week and passed with flying colors. We also had our yearly inspection of the old landfill recently, and it also passed with no issues. Chris has been doing a good job keeping up with all the smaller maintenance issues with the town buildings.

THANKS TO ALL OF THE GUYS FOR ALL OF THEIR HARD WORK!!! YOU ALL ARE APPRECIATED!
