Dear The Planning Commission:

I am petitioning the planning commission on property 417 North Washington Street for variance. The variance is for the setbacks codes that require a total of 25 feet. The entire property width is only 70 ft. I am asking for variance to allow a 48 feet Modular home for 22 feet variance set back. The pictures are attached to this email.

Thank you for your time in this matter. I can be reached at 434-201-9239 or by email a drjbarnette@gmail.com

Sincerely yours,

Dr. Jacqueline Barnette
