Re: Affirmation of Police Chief

Mr. Michael D. Richter comes to us with 15 years of Law Enforcement experience, with just under 13 years of his experience being with the City of Chipley. In his years of law enforcement, he has demonstrated a history of developing new ideas to combat problematic issues and streamline procedures. He has also demonstrated the ability to take charge and manage conditions with no supervision. Mr. Richter is dedicated, flexible and knowledgeable, and is able to adjust to changing environments and job functions with little to no notice. He has shown a knowledge in the application of criminal law and procedure. He encourages officer participation in a team environment, and he has demonstrated dedication to the department in accomplishing department set goals.

As City Administrator of the City of Chipley I believe in nothing less than having an extraordinary team in place to accomplish the goals and objectives we need to accomplish in order to keep our City moving in a positive direction, and I believe Mr. Michael Richter will be a tremendous addition to our TEAM.

Thank you.
