# City of Chipley

1442 Jackson Avenue Post Office Box 1007 Chipley, Florida 32428

(850) 638-6350 Fax: (850) 638-6353

TO: Mayor and Council

City Administrator

FROM: Patrice A. Tanner, Asst. City Administrator/City Clerk

DATE: February 7, 2024

SUBJECT: Finance Office Report – January 2024

For the month of January, the finance staff processed the following:

· · · · · · · · · · · · · · · · · · ·	December	<u>January</u>
Number of utility bills for the normal billing cycle	2,026	2,033
Number of new accounts opened during the month	15	27
Number of accounts closed during the month	18	13
Number of accounts transferred during the month	2	3
Credit Card Payments at Counter/By Phone	273	290
Credit Card/E-check Payments Online	375	371
Issued Work Orders	105	110
Issued Availability of Service Forms	3	3
Issued Business Tax Licenses	3	4
Purchase Orders Issued	31(\$162,291.87)	123(\$64,180.79)
Accounts Payable Checks Issued	123(\$665,260.75)	126(\$265,440.06)

The following information pertains to disconnection of customer services for non-payment:

Number of customers with delinquent accounts	379(12/19/23)	424(01/17/24)
Door knockers and telephone calls made to customers	49	71
Number of customers with delinquent accounts	145(01/03/24)	145(02/01/24)
Actual disconnection of services for the month	43	42

Disconnects began on February 1, 2024 and were not complete at the time of this report.

#### Other Information:

- 1. We are continuing to work on fiscal year-end preparing for the FY 2022-2023 audit.
- 2. We are working toward a Purchasing Card Program for city purchases. We have reached out to local banks to see if they offer a P-Card Program, and we are working with them to discuss their program offerings and see what will work best for the city. We are also working on a policy for the Purchasing Card Program that will, once complete be brought to the Council for approval. We are continuing to reach out to banks. We have met with one bank at this time and the program will definitely be of great benefit to the city. We would like to see what else is out there before we make a final decision. We plan to bring the policy for the Purchasing Card Program to the Council in March.
- 3. We are continuing to reach out to companies about kiosks and are researching further to see what else may be available. We want to make sure we choose the most beneficial kiosk for the city. The purchasing manual update with help to move this process forward more expediently. We plan to bring this before Council in

March.

- 4. We are working on gathering information on a Performance Management Program which will allow for an annual employee performance evaluation in place of the current employee evaluation we have in place, which is outdated. Along with this performance management program we will prepare a scale with an appropriate minimum and maximum pay for each position. This should be completed and ready for use by the Department Heads in March.
- 5. We are working on gathering information about GPS Systems for our city vehicles. We plan to bring this to Council for approval in March. The purchasing manual update will help to move this process forward more expediently.
- 6. We are continuing to work with Wheeler EMC, Inc. on Hurricane Michael, Hurricane Sally and ARPA funding paperwork.
- 7. We plan to order employee identification cards from a vendor during the month of February. We will also be purchasing a less expensive machine so we can make ID cards in case of an emergency.
- 8. We are working with ADG on a work order program that will benefit us by allowing most work orders to be computer generated instead of handwritten, which will speed up the process as well as be more efficient. We plan to have this complete and ready to use by April.
- 9. We have been working with ADG on a backflow program that will benefit the City Hall and Public Works Departments in tracking annual backflow certifications. We plan to have this complete and ready to use by April.

Please let me know if you have any questions or if you need additional information.
